

The Kasten by Veeam logo consists of white type within the Electric Azure blue rectangular badge. The Kasten by Veeam type must never be used without the rectangular badge. The gray, black and white versions of the logo and the white logo with blue type are for use only in special circumstances.

When using the logo, make sure the background is either white or a light color or a dark color that's dark enough, so that the logo still clearly stands out from the background color. Please do not use the logo over busy high contrast backgrounds. Please do not change the color or augment the logo in anyway. See other notes regarding size and clear space below.
